

Executive Summary & Key Findings

Snape Parish Council carried out a Housing Survey to determine the level of need for housing across all tenure types in the parish.

The aim of this survey was to understand the existing and future housing needs for Snape residents including family members (not necessarily living in Snape) and other members of the household. The study was also designed to understand Snape current housing stock and whether this is affordable to local people.

This study included-

- General information about the current housing in Snape including 2011 Census data
- A Housing Survey to determine the housing needs of current households
- Contextual information about Snape
- Information from the Gateway to HomeChoice register to cross check the findings

Data analysis and the writing of this report have been undertaken by Community Action Suffolk.

Key Findings

	Number	%
Surveys Returned Completed (full or partial)	98	24.81
Surveys Not Completed or Returned or Blank	297	75.19
Total Surveys Distributed	395	100

The Snape Housing Survey 2019 achieved a 24.81% return rate, with respondents in favour of homes for older people, small family homes and homes for couples.

From the 98 surveys returned, 10 households responded that the current households have identified a current need totalling 13 people.

From the 98 surveys returned, 5 of those households responded identifying a need for 10 family members (people with a local connection) wishing to live in or return to Snape.

In total, the response from 15 households identified a housing need for 23 people in Snape. This report has been compiled based solely on the data from the responses received. These figures may change throughout the report depending on the number of questions completed.
